MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Possible Nomination for Enrico  
Fermi Award

1. This memorandum suggests a possible nominee for the Enrico Fermi Award.

2. The Enrico Fermi Award nomination request is difficult to reconcile with the inherent restrictions of CIA. However, you might wish to consider Pete Scoville. In my view, he has done as much or more than anyone else in this country to provide meaningful intelligence on foreign nuclear programs. Certainly no one else in CIA has the stature to command serious consideration in this field.
